JOSIAH TURNER, Jr., EDITOR.

[From the New York Sun, June 13.]

A WONDERFUL MICROSCOPIC DISCOVERY.

Science is yet ceaselessly working on to results still more surprising. The last advance, which has just been made in this city, is a very large one. Until now the best microscope magnified an object not more than two hundred million times its actual size, and very few microscopists ever saw such power. The President of the Royal Society of England last summer showed a shell magnified one hundred and forty four million times, and this excited the astonishment of microscopists through out the world. But the new optical combination just completed in this city exhibits the same object under an enlargement of nine thousand million times its natural magnitude. If an ordinary domestic fly could be seen entire under such magnification, it would seem to cover a space as large as the whole city of New York below Wall street. A man would appear more than a hundred miles high, and a lady's hair would reach half way from New York to New Haven.

This wonderful instrument is so sensitive that a loud word spoken near it destroys all distinctness of vision, from the tremor imparted to it by the motion of the air, and a footstep on the floor shakes it out of adjustment. The field of view—that is, the area which can be seen at once—is a circle only the one twelve-thousandth of an inch in diameter, but it appears to the eye to be eight inches in diameter. A microscopic shell called an *angulatum*, of which about one hundred and forty placed end to end will reach an inch, and which is simply marked with lines of the most exquisite delicacy when examined under ordinarily powerful microscopes, exhibits under the new instrument half globes of white silex, whose diameters appear to be an inch and three quarters, and of which only fifteen can be seen at once. In reality, the point of a embric needle is larger than the circle upon which those fifteen half globes exist, and yet that circle appears like a dessert plate covered with lady apples. These wonders we have seen, but how they are produced only men of science can fully explain and understand.

AN INNOCENT SKETCH OF "DRAW POKER."—On a recent pleasure trip we were amused at the description that an old gentleman, from Illinois, gave of a game of bluff or draw poker. From his innocent manner we were confident that he knew no more about it than his language indicated, and we formed a very favorable opinion of the morality of the community in which he resides. Hear the gentleman's descriptions: "There were four well dressed young men at the table; one of them had a bunch of small, nice pictured pasteboards, about the size of an envelop, though not so large; some had pictures of men and some pictures of women, and some had only spots on them; some of the spots were red and some were black; he mixed them altogether and laid them down and said 'cut,' but I didn't see any knife; the one on the right took off about a dozen; the fellow who had mixed them put the dozen at the bottom of the bunch, and commenced throwing them around with the picture side down, giving each, including himself, at first two, then three. Each then looked carefully at his pasteboards, being careful that none of the others saw his pictures, and then each put down a dollar, and said he would bet he had the best pictures, or the best pasteboards, and I don't know exactly which.—The man with the bunch then said: "How many more pasteboards do you want?" and they each gave back two or three and received the same number off the bunch.—They all looked carefully again, and two of them said they would "pass out," but they sat still. The other two each put down a five dollar note, and one of them said, "Kings up, deuces down," but I did not see anything go up or down; the other one said, "Three queens," and he took the money. I suppose one of them must be a lunatic, on the way to the asylum, and the others are his friends trying to amuse him. I hope they will keep him quiet until we get into port.—*Indianapolis Sentinel.*

THE MYSTERY OF EDWIN DROOD.—The fears of the millions of lovers of Dickens on both sides of the Atlantic that "The Mystery of Edwin Drood" was left unfinished are dissipated by the announcement of the London publishers. They state that they have sufficient material on hand for three more complete Nos., and that from a mass of memoranda the story can easily be completed by a competent hand. It is perhaps premature to speculate on the person whom Dickens has designated to finish his novel, but it is impossible to avoid thinking of his friend and relative, Wilkie Collins, in this connection.—*New York World.*

PARIS annually sends twenty-five thousand children into the country to the charge of nurses. Of this number about eleven thousand die in the first year from insufficient care.

SOME of our Democratic exchanges are already nominating candidates for the Presidency in 1872.

A BEAUTIFUL SENTIMENT.—In Augustin Daly's great play, "Under the Gaslight," Laura Courtland utters these beautiful sentiments:

"Let the woman you look upon be wise or vain, beautiful or homely, rich or poor, she has but one thing she can really give or refuse—her heart. Her beauty, her wit, her accomplishments, she may sell to you—but her love is the treasure without money and without price. She only asks in return that when you look upon her your eyes shall speak a mute devotion; that when you address her, your voice shall be gentle, loving and kind. That you shall not despise her because she cannot understand all at once your vigorous thoughts and ambitious plans, for when misfortune and evil have defeated your greatest purpose, her love remains to console you. You look upon the trees for strength and grandeur; do not despise the flowers because their fragrance is all they have to give.—Remember, love is all that a woman can give—but it is the only earthly thing which God permits us to carry beyond the grave."

A New Hampshire Irishman became frightened while being lowered into a deep well the other day, and cried out to the men above that if they did not haul him up he'd cut the rope. To save the rope they hauled him up.

WALTHAM

WATCHES.

THE EXTENSIVE USE OF THESE WATCHES for the last fifteen years by Railway Conductors, Engineers, and Expressmen, the most exacting of watch-wearers, has thoroughly demonstrated the strength, steadiness, durability and accuracy of the Waltham Watch. To satisfy that class in all these respects, is to decide the question as to the real value of these timekeepers.

More than 450 000 of these watches are now speaking for themselves in the pockets of the people—a proof and a guarantee of their superiority over all others.

The superior organization and great extent of the Company's Works at Waltham, enable them to produce watches at a price which renders competition futile, and those who buy any other watch, merely pay from 25 to 50 per cent. more for their watches than is necessary.

We are now selling Waltham Watches at less prices in greenbacks, than the gold prices before the war. There is no other manufacture of any kind in the United States of which this can be said.

These time-pieces combine every improvement that a long experience has proved of real practical use. Having had the refusal of nearly every invention in watchmaking originating in this country or in Europe, only those were finally adopted which severe testing by the most skillful artisans in our works, and long use on the part of the public demonstrated to be essential to correct and enduring time-keeping.

Among the many improvements we would particularize:

The invention and use of a centre-pinion of peculiar construction, to prevent damage to the train by the breakage of main springs, is original with the American Watch Company, who, having had the refusal of all other contrivances, adopted Fogg's Patent pinion as being the best and faultless.

Hardened and tempered hair springs, now universally admitted by watchmakers to be the best, are used in all grades of Waltham Watches.

All Waltham Watches have dust-proof caps, protecting the movement from dust and lessening the necessity of the frequent cleaning necessary in other watches.

Our new patent stem-winder, or keyless watch, is already a decided success and a great improvement on any stem-winding watch in the American market, and by far the cheapest watch of its quality now offered to the public. To those living in portions of the United States where watchmakers do not abound, watches with the above mention d improvements which tend to insure accuracy, cleanliness, durability and convenience, must prove invaluable.

Every watch guaranteed by the Company.

To prevent imposition, buyers should see that every watch should bear either of the following trade marks.

American Watch Co.,	Waltham, Mass.
Amn. Watch Co.	Waltham, Mass.
American Watch Co., Crescent St.,	Waltham, Mass.
Appleton, Tracy & Co.,	Waltham, Mass.
Waltham Watch Co.,	Waltham, Mass.
P. S. Bartlett,	Waltham, Mass.
Wm. Ellery,	Waltham, Mass.
Home Watch Co.,	Boston, Mass.

For sale at retail by all respectable dealers.

A PROCLAMATION

By His Excellency the Governor of North Carolina.

Executive Department of N. C.,

RALEIGH, June 6th, 1870.

WHEREAS, Official information has been received at this Department, that a vacancy exists in the representation from this state in the Congress of the United states, caused by the resignation of Hon. John T. Dawebsz, a member of the House of Representatives from the 4th Congressional District, composed of the counties of Wake, Franklin, Granville, Orange, Johnston, Nash, Chatham and Warren,

Now therefore, I, W. W. Holden, Governor of the State of North Carolina, by virtue of authority vested in me by law, do issue this Proclamation, ordering an election to be held in the various counties composing said District, on the first Thursday in August next, for the purpose of filling the unexpired term of the said John T. Dawebsz. It is further ordered, that said election be held in all respects in accordance with existing laws.

Done at our City of Raleigh, this 6th day [L. S.] of June, 1870, and in the 94th year of our Independence.

W. W. HOLDEN, Governor.

By the Governor:

W. H. RUMBOUGH, Private Secretary.

THE CONSERVATIVE CONVENTION.

According to adjournment the Conservative Convention of Wake County met today, in Tucker Hall, for the purpose of making nominations of Candidates for county offices, and for members of the General Assembly.

The convention was organized by calling Moses A. Bledsoe, Esq., to the Chair, and appointing B. W. Justice, George W. Taylor, and Jno. C. Syme, Esqs. as Secretaries.

A committee to recommend nominations was appointed, and while they were absent, Ex-Governor Z. B. Vance addressed the large assemblage of white and colored present, in one of his ablest efforts.

It is not our purpose to attempt a report of the proceedings of the Convention, today; indeed we could not, for, at the hour we close to go to press, the committee had just come in with their report, which had not been acted on by the convention.

Should we obtain the names of the nominees before the paper is put to press, we will add them to this paragraph. Proceedings in full will be given in Monday evening's issue.

The following nominations were made:

For the Senate:
HON. DANIEL G. FOWLE.

For the House of Representatives:
DR. J. B. DUNN, | J. O. DEARTERET,
RUFUS H. JONES, | G. H. ALFORD,

For County Commissioners:
G. W. SORWOOD, | DANIEL SCARBORO',
D. B. HOLLAND, | W. R. POOL,
PETERSON DUNN.

For Sheriff: W. H. HIGH. | **For Coroner:** KEARNY CHURCHUR.

For Surveyor:
PENDALL BEVERS.

PREPARING FOR THE ELECTION.—It has already been announced that Senators Pool and Abbott were in Raleigh advising with the Governor. "Senators Pool and Abbott have gone to North Carolina," says a recent issue of the Washington *Chronicle*, "to aid and strengthen Governor Holden in devising means to repress disorder in two or three counties of that State." So it seems that Governor Holden's war proclamation was concocted in Washington City, and our braggart Governor only filled the columns of his organ with brave words and terrible threats to steal the thunder of our warlike Senators, and, too, he had to "whistle to keep his courage up."

These three worthies were engaged really in preparing for the August election, and we have the result of their deliberation in the orders of the Governor to his Generals of Divisions to organize regiments of State troops and "minute men." The election is to be carried by force and military interference. Instead of "repressing disorder in two or three counties," these devilish and slandering "peacemakers" intend to inaugurate disorder in many counties. But their wicked schemes will not succeed. Our people will give no cause for the interference of the Radical mob whom Jones, and Clarke, and Martindale will muster together to do the dirty work of their masters, Holden and the Devil. The people will only be aroused to greater efforts to defeat these vile men, who seek to futher impoverish them in their selfish and dangerous efforts to maintain their ill-gotten power. Holden's militia cannot save his party from defeat, or himself from everlasting disgrace.

We again appeal to our friends to give no possible excuse for the interference of this armed mob which Holden is organizing. Let us bide our time.—*Wil. Journal.*

A bold and daring robbery, says the Wilmington *Journal*, was perpetrated on Tuesday last, near Marion C. H., S. C.—About dark of that day, five or six armed men appeared at the store of Messrs. Ellerbe, Watson & Co., doing business about 10 miles from Marion, and surprising the clerk, Capt. T. E. Stanley, secured him and his wife and child, and then proceeded to rob the premises. They forced Capt. Stanley to give up to them the key of the safe, from which they abstracted $400, and they also took off with them as much of the goods as they could carry. Three fine horses were also stolen from some of the near neighbors, by this same gang. It is supposed that these are some of the band of Scuffletown robbers, as some men from that neighborhood have been in the vicinity of the scene of the robbery, for some time past, engaged in getting out shingles. A strong body of men have started in pursuit, and have gone towards Scuffletown, as they were tracked in that direction.

The above facts were made known to us through the medium of a letter received by a merchant of this city from a party in South Carolina.

A French surgeon has discovered a process of performing operations without pain. He uses instruments heated to white heat by means of electricity. He was led to the discovery by observing that burns caused by intense heat produced no pain. The absence of pain is owing to the destruction of the nerves by the great heat.

FACTS FOR THE PEOPLE.

COMPARATIVE VIEW OF STATE EXPENSES BEFORE AND SINCE THE INCOMING OF THE PRESENT ADMINISTRATION.

The *Standard* has been engaged recently in trying to cover up the odium of the late Radical Legislature in its extravagant appropriations and dishonest waste of the public money, and to do what John Pool, it seems, was not willing to do, namely, to endorse the financial policy of Gov. Holden's administration.

In endeavoring to accomplish its object the *Standard* attempts to make three points:

1st. That the appropriations and expenditures of the present administration have not been extravagant. Having no confidence, however, in the success of his efforts to make the people believe this, he asserts

2ndly, That the Conservatives and Democrats of the Legislature were responsible for all the extravagance, fraud dishonesty and wasteful expenditure, of the last two years. Not being able to believe this assertion himself, in the face of the fact that the Radicals had full control of the Legislature, as well as all the other departments of the Government of the State, he essays,

3rdly, To prove that the preceding administration laid as heavy, or heavier taxes, and expended as much money as the present. In refutation of this barefaced assertion, we reproduce, as promised, our article on State expenditures for the year 1866-'67, as compared with those for the year 1868 '69, and let the figures from the Treasurer's and Auditor's books answer the *Standard* on this subject, and in order that the contrast may be the more palpable, we place them in parallel columns.

HERTFORD COUNTY, N. C., June 11, 1870.

HON. JOSIAH TURNER—*Dear Sir*:—While on my rambles in Eastern Carolina I sojourned at Winston, in above county briefly, and attended the Republican County Convention to nominate candidates for the Legislature. After the business of convention received due attention, it adjourned, and several Conservatives requested Mr. Jno. H. Jernigan to address the people, who did so for more than an hour in a logical speech, sustaining every position by reference to the journals of the Legislature and public documents; and it is very certain that the speaker was familiar with the political history of his State, and possessed a mind in a high state of culture. I was informed the speaker was decidedly the choice of Hertford County for the Senate. The great Washington L. Boon, of Gates, the colored missionary, attempted to hold the Conservative party responsible for the present unfortunate condition of North Carolina, but T. R. Jernigan, Esq., the Conservative candidate for the House of Representatives, from this county, completely annihilated, skinned the Rev. speaker from his head to his heels, and his colored friends say something must be wrong, there must have been stealing or Mr. Boon could do better than that.

Will let you hear from me again. Leave to-night per steamer. Three cheers for Hertford and the Conservative party.

Yours, &c.,
B.

CONSERVATIVE CONVENTION.

SWAN QUARTER, HYDE CO., N. C., June, 6th, 1870.

The Convention was called to order by Jones Spencer, Esq., upon whose motion, Nathl. Beckwith, Esq., was elected Chairman and Israel B. Watson, Secretary.

Mr. Beckwith, on taking the Chair, explained the object of the Convention in a very appropriate and stirring speech. He dwelt at length upon the perilous condition of the times—the dishonesty of the State administration—the glaring and outrageous frauds of the late Legislature, the unutterable rottenness and corruption of the Radical party; and the entire absence of all claim that that party has to decency and the respect of honest and law abiding men.—He exhorted the members of the Convention to discard from their bosoms all personal preferences and prejudices, to vote for no one on account of friendship, nor against any one through malice, or to gratify personal spleen, to give us honest men, men whose palms have never been covered by dishonest pennies, that the whole country was groaning and crying for the return of the good old times when honesty and virtue were considered a merit, and scoundrelism and crime were punished by law.

At the close of Mr. Beckwith's address, Jones Spencer, Esq., moved that a committee of seven from each Township in the county, be appointed by the Chair to draft resolutions expressive of the sentiments of the Convention, and to select suitable candidates to fill the several county offices, and present them to the Convention for nomination.

The committee after consultation reported the following resolutions:

Resolved, That we fully endorse the principles and recommendations put forth by the Conservative members of the late Legislature in their address to the people of North Carolina, and that we will, by all honorable means exert ourselves to carry them to a triumphant issue in the coming election.

Resolved, That this Convention accept with unfeigned pleasure, the nomination of Hon. E. J. Warren for the Senate, by the Convention of Beaufort county.

The committee at the same time recommended the nomination of the following gentlemen for the office to be filled by election, at the coming August election, who were unanimously nominated:

For the Senate—Hon. E. J. Warren.
For the Commons—Wilson H. Lucas.
For Sheriff—Henry S. Gibbs.
For County Treasurer, Joseph C. Tunnell.
For Register of Deeds, G. B. Credle.
For Coroner, John Bateman.

OFFICIAL USE OF THE WORD REBEL—PROTEST OF VIRGINIA CONSERVATIVES.

HOUSE OF DELEGATES, RICHMOND, June 10.

Hon. Hamilton Fish: To the instructions by the authority of the United States to the Marshals of Virginia, or *censors*, we take liberty to take exceptions. English, as well as American jurisprudence, not to invoke the aid of the Constitution of our fathers, holds all men to "be innocent until proved guilty;" and while mourning the loss of our liberty, as well as the loss of our braves who died in defence of it, we reject as inapplicable to any one among us of the word "rebel," and we therefore respectfully ask that it be stricken from the instructions, until some one or more shall have been duly convicted of the high crime charged. Respectfully,

W. MCLEARIN, and others,
Conservative members of House of Delegates.

THE CAPITOL DOME.—The Philadelphia *Press* is responsible for the following:

The expansive influence of solar heat on the dome of the Capitol at Washington is said to be considerable; that ultimately the building must be greatly damaged by it. Experiments were lately made to test the extent of this influence. The dome we need not say is of iron substance which, as is well known, expands more than stone.—A long plumb line was fastened to the under side of the ceiling of the rotunda, and extended to the stone pavement below.—The plummet described daily an eliptical curve, of which the longest diameter was from east to west, and amounted in hot sunny days to four or five inches.

An irreverent Athens correspondent, speaking of the new railroad from that city to Piræus, says: "Think of Socrates soliloquizing over a steam engine; Diogenes, with his tub, dead-heading it to the Piræus, or haggling about a seven-cent ticket; or Euripides working up a railroad catastrophe into one of his polished tragedies; of the courtly Xenophon taking typographical notes for his 'Anabasis' from the window of a sleeping car; or of Alcibiades lolling in the smoking car and playing a game of high low jack for the cigars."

A Chicago editor, who probably knows what he is talking about, says: "The most exasperating thing next to being a hog, is to be called a hog."

YOUNG, HEALTHY, VIGOROUS AND CONDUCTED BY A WISE, PRUDENT, AND ECONOMICAL BOARD OF DIRECTORS UPON A

NEW SYSTEM,

devised by its talented and distinguished Actuary CHAS. N. MORGAN, which must make it the leading Company in America, for persons in

MODERATE CIRCUMSTANCES,

and all who appreciate and demand the most UNQUESTIONABLE SECURITY, at rates in most cases, *some decidedly lower than* those of the leading Mutual Cash Companies.

The Excelsior issues Policies on *all* the plans of *Mutual or Stock* Companies, extending to policy holders, all that really desirable advantages. Its policies being *non-forfeiting*, the insured are privileged to *live and travel where they please* in any healthy part of the world, they participate in its profits, are allowed 30 days grace for payment of renewal of premium, a cash surrender value of policy, *and a privilege* which has never been offered by any other Company, that of converting Policies into

ANNUITY BONDS,

after the payment of 5 or more annual premiums.

Hitherto, I have been restricted in the very popular Company which I had the honor to represent to *Stock rates* alone, which most of the *Mutual*, and mixed Companies have adopted. This disadvantage, together with the multiplication of many new Companies, in this State who claimed to possess unusual charms, together with the extraordinary attractions presented by the Excelsior induced me to accept the management of that Company, whose plan combines *all* the popular features of other Companies, represented in this State, without an exception, and the additional privileges of converting policies, which the holder can not afford to keep up, or wishes to discontinue because of the death of those for whose benefit the policy was secured, *into an Annuity Bond* which provides an income *in cash through life, or for a series of years as required.*

Circulars giving full explanations and any other information, will be cheerfully furnished.

The most liberal arrangements, will be made with first class solicitors, to push the Excelsior forward in the Old North State, to that position which her low rates and most ample security entitle her to occupy.

ONCE MORE.—We will say again, that we pay no regard to communications unaccompanied by the author's name, nor to communications written on both sides of the sheet of paper.

ESSAYS TO BE READ AT THE FAIR IN OCTOBER.—In pursuance of a resolution of the North Carolina Agricultural Society, President Battle will request gentlemen of skill and knowledge to prepare essays on important subjects to be read at the next State Fair. Already Mr. Wm. F. Shultz of Salem, has consented to prepare a paper on BEES AND HONEY MAKING, and Captain James R. Thigpen, editor of the Reconstructed Farmer, will read a paper on FENCES for farms, discussing the question whether they should be abolished, on account of their expense and trouble.

Mr. Shultz is perfectly familiar with the history of bees and their management.—Capt. Thigpen is one of the most enlightened and successful planters in Edgecombe, and valuable instruction will be the result of their labors.

A NORTH CAROLINA INVENTION.—Dr. Wm. O. Reid, of Vienna, N. C., exhibited in our office, this morning, the model of an adjustable bedstead, invented by himself, and patented both in England and the United States. It is one of the most ingenious and valuable inventions, for hospitals, for the sick room, and for invalids generally, we ever saw; indeed the imagination could hardly have pictured anything so complete.

On this stead an invalid, who has the use of his hands, can place himself in various postures, sitting, half sitting, or lying down; can elevate his feet or his knees, and by a very slight effort accomplish every movement required on a sick bed. It has an arrangement also, for a lamp, spittoon and bed pan, table for food or medicine, and all so adjusted as to be brought within reach or moved out of the way, without more exertion than would be required to raise a pound weight.

This bedstead, the Doctor says, can be made of walnut with all the necessary fixtures, including mattress, pillows, &c., for about forty dollars.

The inventor of this invaluable adjunct to the sick room, was a surgeon of the Confederate army, in the late war, and it was during his ministrations to the sick and wounded in our hospitals that the idea of the invention was suggested by the necessity for it.

He is now on his way North to make arrangements for disposing of Rights for States and districts, and we have no doubt he will meet with success.

"PUT YOURSELF IN HIS PLACE."—We have received from Messrs. Claxton, Remsen & Haffelfinger, Philadelphia, through J. A. Jones, Bookseller of this city, Charles Reade's new novel, "Put yourself in his Place." This popular novel is published by Sheldon & Co., New York, and for sale by Mr. Jones.

Want of Vitality.

Sometimes there is a lack of vitality in large and apparently well developed frames. Herculean sinews and muscles are not always indicative of stamina and constitutional vigor in their possessor. Health depends more upon the condition of the stomach, the liver and the bowels, than upon the breadth of the shoulders, or the size of loose levers and pulleys of the system in which strength is supposed to reside. All this grand animal machinery is of itself no protective against sickness and decay. Easy and perfect digestion, regular and healthy secretions, uncontaminated blood and a regular discharge of the waste matter of the body through the intestines, the kidneys and the pores, are the most potent safeguards against disease, the best guarantees of longevity. To promote these objects is the great end and purpose of Hostetter's Stomach Bitters. The ingredients of which the Great Tonic and Alterative is composed are taken solely from the vegetable kingdom and their medicinal virtues are not counterbalanced by the acid and poisonous elements which exist, more or less, in all the powerful mineral drugs. Sufferers from indigestion, biliousness, intermittent fevers, nervous debility or constipation, not only find immediate relief from the use of this agreeable stimulant and invigorant, but become conscious, as time wears on, of an increase of constitutional elasticity and vital force. Labor and exposure no longer produce the same effect upon them as heretofore, and they feel as if they had acquired a new hold on life, a new reserve of physical and mental energy. This has been the experience of thousands of both sexes, and every day adds to the mass of commendatory testimony. At this season of the year when the temperature and state of the atmosphere, exercise a peculiarly depressing influence over the minds and bodies of invalids, Hostetter's Bitters is the only tonic upon which the debilitated can rely for swift and permanent restoration.

TRIAL OF MOWERS.

We clip the following from the Nashville *Union and American*, of the 15th inst., in regard to a mowing match near that city.

Pursuant to previous notice, the trial of mowers came off at Gen. Harding's magnificent farm, "Belle Meade," six miles from the city on the Nashville and Northwestern Railroad, yesterday. On reaching the grounds, at near 11 o'clock, we found that quite a crowd had gathered, many going in private conveyances and others by the railroad. The day was as delightful as could have been wished, a brisk southwestern breeze blowing over the sweet scented clover, and rustling the leaves and boughs of the forest oaks with music, with a clear and cloudless sky overhead. In a large clover field of forty acres, around which circles the mile race course, a goodly number of the contesting machines were rigged and hitched, and mowing down the grass at a vigorous and rapid rate. The clover in the field where the trial was being made was very rank and luxuriant, and had been considerably blown by recent winds and storms. The ground was also very soft and heavy, which was the principal drawback to the working with celerity of the machines. The chances being equal however, no complaint or objection could be urged. The President, the committee, the representatives, and drivers of machines, were assiduously engaged in the business before them. Jolly-faced Gen. Frank Cheatham led the van and worked like a Trojan, and seemed as much at home as when he marshaled his victorious veterans in the war of battle.

Gen. Harding was a prince of a courteous, dignified, amiable, and hospitable Tennessee gentleman, as he is.

For the Sentinel.

LECTURE.

On yesterday afternoon, we had the pleasure of hearing our talented young townsman, Fab. H. Busbee, Esq., deliver an interesting lecture to the young ladies at Mrs. Lacy's School, on the elements of Chemistry and Geology, and the influence exerted by the sun on the earth.

The young lecturer handled the subject with ease, and evinced considerable research in these interesting subjects, so much as to indicate plainly the fact, that had his inclinations led him to have given his whole time and study to either of these sciences, the ranks of those who have given so much light to the world on these most important matters, would have received a most valuable accession.

The young ladies of Mrs. Lacy's flourishing school, enjoy superior advantages in the pursuit of all studies, having gifted and accomplished instructors in all the departments. "LOOKER ON."

INTERNATIONAL COURTESY.—A distinguished gentleman from Liberia addressed the Board of Trade last night, and in the course of his remarks he informed his audience that on hearing the news of the passage of the fifteenth amendment in this country the Liberian legislators had at once resolved to expunge an article in the constitution of their republic which allowed the right of suffrage only to citizens of African descent. "And now," added the speaker in a grand peroration, "in Liberia a white man is just as good as a negro!" This announcement will be, we presume, very gratifying.—*Philadelphia Record.*

A wretch who had stolen his master's wine was thus made conscious of the enormity of the offence by Lord Kenyon in passing sentence: "Dead to every vision of natural affection, and blind to your own interests, you have burst through all restraints of morality and religion, and have for many years been feathering your nest with your master's bottles."

The fish oil mills of Connecticut employ 1,000 men, and 10,000 tons of fish guano are furnished to the farmers, and 500,000 gallons of oil to the trade. This is oil-fish-oil.

Friday Night Dispatches.

WASHINGTON.

WASHINGTON, June 17.—Revenue to-day 1731,000

It is stated that the San Domingo investigation closed its work. It exonerates Gen. Babcock, and finds no evidences of corruption in negotiating the treaty.

The *Star* says: "It turns out that the report of a compromise between the friends of the senate bill incorporating the Texas Pacific Railroad Company and the managers of the Memphis and El Paso enterprise, is without foundation in fact. It is authoritatively stated that there is little or no prospect of anything like a consolidation or compromise."

HOUSE.—Cobb of Wisconsin, introduced a bill to equalize bon ties which passed without opposition, which, Dawes said would involve the expenditure of nineteen millions. The Coat Island bill was resumed and after some discussion was defeated by a vote of 80 to 93. District business was resumed.

SENATE.—The bill pensioning Mrs. Lincoln $5,000 per annum was taken up by a vote of 31 to 24. Edmunds opposed the bill with some force, and it finally went over. Post office appropriation was reported. An amendment restricting free delivery of letters to cities of over 50,000 inhabitants was adopted. Ramsay moved an amendment abolishing the franking privilege. Another amendment continuing the present system of free delivery of newspapers was adopted. The Democratic caucus of members, including four Senators, is now in session to agree upon a national policy. A paper is in course of preparation urging friends in the south not to nominate persons for Congress incapable of taking the iron clad oath unless their disabilities have been removed.

VIRGINIA.

RICHMOND, June 17.—Governor Walker has signed the bill incorporating the Atlantic Mississippi and Ohio Railroad Company. The consolidates the Norfolk and Petersburg, the Southside and Virginia and Tennessee Railroads under the management of General Mahone. The anti-consolidation party had expected a veto, and are much disappointed.

FOREIGN.

LONDON, June 17.—Mr. Dickens left a fortune of £80,000. Six monthly parts of the "Mystery of Edwin Drood" are finished and the story is outlined as to leave no conjecture easy. It is understood that Wilkie Collins undertakes the task of finishing it.

We omit the noon telegrams to-day,—nothing vitally important.

PILLS are invaluable to all who suffer from Bilious and Liver Complaints, Sick Headache, Loss of Appetite, Drowsiness, Giddiness, and especially Indigestion, which prevails to an alarming extent in this country at the present day. By the judicious use of TUTT'S LIVER PILLS the bowels may be kept perpetually in a natural condition of good health. They do not act as merely temporary relief; they keep the human system in a state of sound and vigorous health, by easily and almost imperceptibly cleansing it of all impurities. *It braces and invigorates both the physical and mental organization.*

PAIN KILLER

PERRY DAVIS'

1840 1870

The Great Family Medicine of the Age.

THIRTY YEARS

Have elapsed since the introduction of the Pain Killer to the public, and yet at the present time it is more popular and commands a larger sale than ever before. Its popularity is not confined to this country alone; all over the world its beneficial effects in curing the "ills that flesh is heir to," are acknowledged and appreciated, and as a PAIN KILLER its fame is limited to no country, sect nor race. It needs only to be known to be prized.

THIRTY YEARS is certainly a long enough time to prove the efficacy of any medicine, and that the PAIN KILLER is deserving of all the proprietor claims for it, is amply proved by the unparalleled popularity it has attained. It is a sure and SPEEDY remedy. Sold by all Druggists.

PRICE 35 cts, 50 cts AND $1.00 PER BOTTLE.

THE EQUITABLE

HAS BECOME THE LEADING COMPANY OF THE WORLD.

Its New Business (sums assured), for the year 1869, exceeded that of the second company in rank by more than THIRTEEN MILLION DOLLARS.

In 1860 it was the 9th Company in new business for the year; in 1861 it was the 8th; in 1862 and 1863 the 7th; in 1864 and 1865 the 6th; in 1866, the 4th; in 1867, the 3d; in 1868, the 2nd;

In 1869 it was the FIRST.

The insuring public should not allow itself to be deceived with regard to the term "Annual Dividends." Many companies using this expression mean that their dividends are "ANNUAL" AFTER THEY ONCE BEGIN TO PAY THEM AT ALL; but they DO NOT BEGIN TO PAY until the settlement of the third, fourth, or fifth premium.

One Hundred Dollars paid dividends, at the end of *one year*, and each year thereafter, equals FOUR HUNDRED AND THIRTY-SIX DOLLARS paid at the end of FOUR YEARS, interest at six per cent.

Applications for Assurance may be made to any of the Society Agents throughout the country, or in person or by letter to the General Agents.

DUNN'S PATENT COTTON TIE.

WE BEG TO ANNOUNCE that we have been appointed Sole Agents for the sale of the above Patent Tie in Virginia and North Carolina.

The satisfaction it gave last season wherever used, warrants us in recommending it as the best we yet introduced. It combines the advantages of great strength, great simplicity and ease in manipulation, besides the difficulty of taking up the slack of the band in the operation of baling, is entirely obviated.

We shall have our supply direct from the manufacturer in England, for delivery in July or August, at lowest market rates.

SWEET QUININE

Is a Recent Improvement.

Replaces the use of the BITTER SULPHATE QUININE with which all are familiar.

Dose for dose, it is

WARRANTED

Fully equal in every way to Bitter Quinine,

AND, LIKE IT, IS THE ONE

Great, Positive, and Unfailing

CURE

For all Diseases of Malarious Origin.

Fever and Ague,
Intermittent Fever,
Chill Fever,
Remittent Fever,
Bilious Fever,
Dumb Ague,

and the long train of disorders following these when neglected.

SWEET QUININE

is made solely from Peruvian Bark (as is Bitter Quinine), therefore is of Vegetable origin, and not a Mineral poison, but on the contrary is proved to be one of the elements found in the blood of all healthy persons.

SWEET QUININE

acts as an antidote to, as well as a cure for, malarial or miasmatic poison, the absorption of which by the lungs causes Intermittent Fevers, etc. The only advantage claimed for

SWEET QUININE

over the use of old Bitter Quinine is the entire absence of that intense, persistent bitterness, which in the latter is an insurmountable obstacle to its use with most persons, and always with children.

SWEET QUININE

is in two forms—in POWDER, for the use of Physicians and Druggists, and FLUID, for use in the family and for the general public.

UNPREGEDENTED SUCCESS
Medal Awarded by the Paris Exposition, 1867.

THE AMERICAN COMBINATION Button Hole & Sewing Machine
Has been honored with the *highest award* in premiums and diplomas wherever entered for competition at *fairs* and *exhibitions* held during the past season.
THE SIMPLICITY, EASE AND CERTAINTY with which this machine operates as well as the uniform excellence of its work, throughout the entire range of Sewing, in
Stitching, Hemming, Felling, Tucking, Cording, Braiding Quilting, Gathering & Sewing on, Overseaming, Embroidering on the Edge, and its Beautiful Button-Hole and Eyelet Hole Work,
Place it unquestionably far in advance of any other similar invention.
It is also the CHEAPEST intrinsically, as well as the BEST, since it is really TWO MACHINES combined in one, (by a simple and beautiful mechanical arrangement never before accomplished by human ingenuity,) making either the Lock Stitch or Button-Hole Stitch, as occasion may require. It is, at the same time, simple in construction, comparatively noiseless, easily understood, and in a word, it combines with these ADVANTAGES, EXCLUSIVELY ITS OWN, THE MOST DESIRABLE QUALITIES OF ALL OTHERS.
The public are invited to examine this remarkable machine at Mrs. TOPPING' Boarding House, (Mrs. Thompson's old stand,) Fayetteville Street, and at Watson's Photographic Gallery.
Instructions in the use of the machine will be given to all purchasers *gratis*.

NON-EXPLOSIVE COMBINATION BURNING FLUID
THE CHEAPEST, BEST AND SAFEST ILLUMINATING AGENT IN
THE WORLD!!
No more Exploded Cans!—No more Exploded Lamps!
No more Smoke!—No more Grease!
No more fires!!
EVERYBODY PREFERS IT AFTER GIVING IT A TRIAL!
IT costs less!—It lasts longer!—Gives a more Brilliant Light!—May be burned in hand lamps, without chimney.
Guaranteed to make a better and safer Light than Coal Oil and to be NON EXPLOSIVE!!!
No accidents have ever happened with it.
Protected by Copy right for 28 years from May 8th 1868.
The above Fluid has been in constant use for upwards of three years, and has sustained its unrivalled reputation, as a brilliant, non-explosive illuminating agent, though subjected to the severest tests. Being universally conceded to be superior to Kerosene or Coal Oil. It makes a better light and more of it, than any other illuminating compound. Soft, clear, steady and non-injurious to the eyes. All that is asked is, a fair and impartial trial.
Among the numerous testimonials received read the following:
PHILADELPHIA, March 15th, 1869.
The undersigned, having witnessed the experiments of Messrs. Hale & Co., with their Combination Burning Fluid, take pleasure in commending it to the public. The various tests to which the Fluid was subjected, was in the highest degree satisfactory. We have no hesitation in pronouncing it to be a *safe* and *brilliant* illuminating agent. Its cheapness added to its other good qualities, should ensure its introduction into every family in the country, where Kerosene Oil is used.

ROCKBRIDGE ALUM SPRINGS, VA.
Open May 15th, 1870.
THIS FAVORITE AND CELEBRATED Watering Place is now in complete order for the reception of guests. Important improvements have been added to the buildings since the establishment passed into the hands of the present proprietor, and it is his purpose to keep it in a style not surpassed anywhere in Virginia. The waters of these special springs either cure or greatly relieve most cases of Scrofula, Incipient Consumption, Chronic Bronchitis, Chronic Laryngitis, Chronic Pneumonia, Chronic Dyspepsia, Chronic Diarrhœa, Leucorrhœa, Dysentery. They are also a great value in those affections which are peculiar to the female constitution, and as an appetizer, a tonic and general restorative, they are, perhaps, unrivalled amongst mineral waters. The proprietor will have provided for the lawns and ballroom a first-class band of music, and in general all the sources of amusement and recreation usually found at our best summer resorts will be at the command of the guests at "ROCKBRIDGE ALUM." The place is within eleven to thirteen hours of Richmond, Washington, Baltimore, &c., by rail, all in daylight. Passengers leave the cars of the Chesapeake and Ohio Railroad at Goshen Depot, and new and elegant stage coaches, passing rapidly over a smooth and level road of only eight miles, set down the visitors at the Springs to tea.

A. BALDING'S
PATENT GLASS SUBMERGED
DOUBLE-ACTING FORCE PUMP.
SUBSTITUTE FOR A FIRE ENGINE.
THIS Pump will pump 30 gallons of water per minute, will never cut out the packing, has no friction, no water ever stands in its pipes to freeze, and is less liable to get out of order than any other pump now used. It can be set up in a short time by any ordinary mechanic.
The No. 3 pump for yard wells will be sold at from $20 to $30, capable of throwing 30 gallons of water per minute. The price of No. 2 for railroad stations, throwing 60 gallons per minute, will be given upon application.
Having the exclusive right to this pump for the states of North and South Carolina, and having established a factory for the manufacture of them at Wilson, N. C., I will receive orders for them at Wilson, and will ship them by Express C. O. D., or, if the money is sent me, by the regular freight. The number of feet in the depth of the well must be given in all cases

POLICIES VALUABLE IN LIFE, AS WELL AS AT DEATH!!
THE BROOKLYN LIFE IS THE ONLY COMPANY IN AMERICA, WHICH GUARANTEES
DEFINITE CASH SURRENDER VALUES,
IN CASE A POLICY IS FORFEITED FOR NON-PAYMENT OF PREMIUM.
The BROOKLYN LIFE enjoys the highest reputation *for judgment of investment, economy of management, and skill and care in the selection of risks,*—upon which elements of administration the security of a Life Insurance Corporation *depends*
The laws of New York compel Companies in that State to calculate the Cash value of their Policies, each and every year, *and a certain legal standard of reserve and accumulation must be held by the Companies to meet all their liabilities.*
Insurers in looking around for Companies in which to insure, should carefully seek for this important SAFEGUARD. It will be found in the BROOKLYN LIFE.

DR. E. BURKE HAYWOOD, Examining Physician.
Gen'l. S. B. BUCKNER, Manager Southern Dep't.
The Globe has peculiar claims upon the Southern country, from having first introduced the non-forfeiting feature in all its policies. Its President, Mr. Pliny Freeman, was the inventor of the ten-year, non-forfeiture plan, and introduced it in the Company with which he was then connected.
The Globe takes no notes; but receives its premiums in cash, and pays its policies in cash, without deduction.
To those desiring it, the Company will issue policies, registered and certified by the Superintendent of the Insurance Department of New York, as "secured by pledge of public stock."
